

TTF Nandi Barn

Designed to be uniquely Australian, the Nandi Barn is so much more than your usual shed. Adaptable to a range of uses, this 6m x 8m timber frame will not only look fantastic on your property but will become your favourite place to spend time.

A handcrafted heavy timber barn frame built from Australian Softwood and designed to be the perfect Australian Shed. Rough Sawn timbers, can be combined with beautiful barn doors, corrugated metal sheeting or timber cladding, this building will fit seamlessly into a range of property types and uses.

Completely handcrafted using traditional pegged mortice and tenon joinery. Each unique Australian timber is carefully scribed together by hand, joinery cut and assembled with bespoke hardwood pegs.
